

□

### Propolis tincture

It is a natural germ-killer, which is collected by bees from the plants' shoots. Also, it is an **antibacterial liquid**

for the curing of open wounds, bruises, injuries of mucous membrane, and inflammations in the mouth or in the digestive system.

for the curing of open wounds, bruises, injuries of mucous membrane, and inflammations in the mouth or in the digestive system.

### **Propolis skincare balm**

Propolis is a great cure for all kinds of skin problems because of its nutrient and natural antibacterial effects.

### **Honey with Propolis**

It is a special mixture of wattle honey and propolis. So, it compounds both of its ingredients' beneficent effects. Also it doesn't contain alcohol.
